STRATABOUND MINERALS CORP.
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTH PERIODS ENDED JUNE 30, 2018 AND 2017

1. CORPORATE INFORMATION

Stratabound Minerals Corp. (“Stratabound”) is in the business of acquiring and exploring mineral properties in Canada. Stratabound was incorporated under the Canada Business Corporations Act on March 5, 1986, and is listed on the TSX Venture Exchange, having the symbol TSX.V: SB, as a Tier 2 mining issuer and is in the process of exploring its mineral properties in the province of New Brunswick and the Yukon Territory.

Stratabound entered into a reverse take-over (“RTO”) with Silver Stream Mining Corp. (“Silver Stream”) a US corporation situated in Nevada through its wholly owned subsidiary Stratabound Minerals (Nevada) Inc. a US corporation situated in Nevada.

As a result of the Reverse Takeover (“RTO”) discussed in Note 2(d) below, Stratabound has a wholly-owned US subsidiary, Silver Stream Mining Corp (collectively, “the Company”).

The address of the Company’s principal office is 100 King Street West, Suite 5700, Toronto, Ontario, Canada, M5X 1C7.

The condensed consolidated interim financial statements were authorized for issue by the Board of Directors on August 27, 2018.

2. BASIS OF PREPARATION

a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretation made by the International Financial Reporting Standards Interpretation Committee (“IFRIC”) as applicable to the preparation of interim financial statements, including IAS 34 *Interim Financial Reporting*. These condensed interim consolidated financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRS as issued by the IASB.

b) Basis of measurement and going concern

The financial statements have been prepared on a historical cost basis, except for assets acquired as part of the RTO at fair value.

The business of exploring for mineral resources involves a high degree of risk and there can be no assurance that the Company’s exploration programs will result in profitable operations. The Company’s ability to repay its loans, to meet its obligations arising from exploration and development activity and to provide working capital for normal operations is dependent upon the existence of economically recoverable reserves; the ability of the Company to continue to secure financial support from public markets; the ability to complete future equity financing; as well as the ability to generate future profitable production or proceeds from the disposition of its properties. The Company has a history of losses, with an accumulated deficit of \$15,548,061. The Company is dependent on its ability to raise additional funds through equity financing in order to meet the Company’s current liabilities and continue exploring its mineral resources. As there is no assurance the Company will be successful in these efforts, these conditions result in material uncertainties that may cast significant doubt upon the Company’s ability to continue as a going concern.

3. MARKETABLE SECURITIES AND TAYLOR BROOK OPTION

In February 2017, the Company granted Bandera Gold Ltd. (now Jaeger Resources Corp.) (“Jaeger”) an option to acquire an 80% interest in the Taylor Brook property in exchange for 1,000,000 shares of Jaeger at closing and other consideration. Jaeger issued an additional 1,000,000 shares to the Company in February 2018 pursuant to the terms of the agreement. Jaeger is also required to pay the annual renewal fees, and expend \$85,000 cumulative on the property by October 27, 2018, and \$500,000 cumulative by October 27, 2019 if they wish to continue the option.

Upon acquisition by Jaeger of its 80% interest in the property when all requirements are met, the Company could elect within 90 days to continue in a joint venture with Jaeger, buy back 40% ownership from Jaeger for an amount of 150% of the exploration expenditures and renewal payments incurred by Jaeger, or transfer the remaining interest in exchange for a 3% net smelter return royalty.

common share purchase warrants, each warrant exercisable at \$0.075 and expiring December 15, 2019. The amount recorded was based upon the fair value of the equity instrument provided using market price for the common shares and the Black-Scholes option pricing model for the warrants using the following assumptions: weighted average life of 2 years; risk-free rate of 2%; expected volatility of 219%; and, a dividend yield of 0%. All warrants granted vest immediately. An additional \$100,000 cash payment was due April 15, 2018 and was paid in March 2018, and additional share issuances of 5,000,000 at December 15, 2018 and at December 15, 2019 are required. The option consists of two individual option agreements, one for the Golden Culvert claims, with a sub-option on the Rubus claims; and one for the Little Hyland claims. Maintenance and exercise of the options will require the following payments to the Optionors:

Payment Date	Golden Culvert	Rubus	Little Hyland
September 27, 2018	\$100,000	\$20,000	\$60,000
September 27, 2019	\$120,000	\$25,000	\$90,000
September 27, 2020	\$150,000	\$30,000	\$105,000
September 27, 2021	\$200,000	\$45,000	\$125,000
September 27, 2022	\$350,000	-	\$175,000

Of the above amounts, 50% may be paid in common shares of the Company, except for the 2018 Rubus payment. The deemed share price shall be established using the 30-day weighted average price of the shares immediately prior to the share issuance.

Exercise of the options will also require fulfillment of work requirements of \$350,000 at each of the Golden Culvert and Little Hyland properties during the period ending September 27, 2022. The claims are subject to net smelter return (NSR) royalties aggregating to 2.5% to South Shore and the Optionors.

The Company began its initial exploration program at the Golden Culvert and Little Hyland properties during May 2018 and has received trenching assay results and is awaiting assay results from the recent drilling program.

The carrying value of the Golden Culvert property at June 30, 2018 is \$1,141,062 (December 31, 2017 - \$956,500).

b) Bathurst, New Brunswick

The Company holds a 100% interest in 158 units and one mining lease in the Bathurst base metal mining camp in New Brunswick, Canada. The properties include the CNE/Captain and Taylor Brook (see Note 3) claim groups and the CNE Mining Lease. All are subject to a 1% net smelter return royalty on production, except for a portion of the CNE/Captain Group, which is royalty free. The carrying value of the Bathurst properties at June 30, 2018 is \$378,724 (December 31, 2017 - \$407,524).

6. LOANS PAYABLE AND RELATED PARTY TRANSACTIONS WITH THE LARGEST SHAREHOLDER

On August 25, 2015 the Company (prior to the RTO with Silver Stream) borrowed \$250,000 from its largest shareholder, Bellport Resources Ltd., under two notes, to fund water sampling/monitoring and reclamation obligations at the CNE mine site, to pay fines related to the Fisheries Act charges brought against the Company in relation to the CNE mine operations, and to provide for ongoing administration of the Company. A note for \$130,000 is secured by the CNE leases as well as the environmental bond that has been posted with the Province of New Brunswick. A note for \$120,000 may, at the Company's election, be converted into common shares of the Company. The notes do not bear interest. During September 2017 the Company and Bellport agreed to extend the maturity of the notes from December 31, 2017 to December 31, 2018 in exchange for a reduction in the conversion price of the \$120,000 note from \$0.06 to \$0.05 per share. As a result, the Company realized a charge to contributed surplus on the debt restructuring of \$16,189. At June 30, 2018, the Company has not made an election regarding conversion.

Finally, Bellport subscribed for \$20,000 for 363,636 units in a private placement during March 2018. (See Note 9.)

7. DECOMMISSIONING LIABILITIES

During 2013 (prior to the RTO), the Company completed all initial reclamation work on the CNE open pit mine. The decommissioning liability estimate has been revised periodically as necessary to account for additional reclamation costs above the initial liability estimate.

The Company settled the decommissioning liability during fiscal 2017, and any further reclamation costs related to the CNE open pit mine are not expected to be significant and will be expensed as incurred going forward.
